EXPEDITED WORLD CARGO

➤ WAREHOUSING

YOUR CARGO IS OUR PRIORITY

SHIPPING AND RECEIVING

EWC is a full service warehouse and distribution company. We offer customized warehouse solutions built to suit specific customer requirements. Our services include:

- Storage (Short-Term and Long-Term)
- Inventory Management
- Certified Cargo Screening
- Supply Chain Improvement
- Warehousing Support

We operate two convenient warehouse locations in the Washington/Dulles and Miami areas. Capable of short-term and long-term storage, our team of trained professionals can help reduce your warehouse and distribution costs. Our shipping and receiving services use a specialized inventory system with a serial number technique to scan each item that passes through the warehouse. Your items will be treated with care no matter how long you use our warehouse and distribution services.

BONDED CARGO

When a shipment arrives at U.S. Customs but has not yet been paid for, it is considered under the control of Customs until the tax and duty issues have been resolved. EWC has the freedom to act in ways that your company cannot because your shipment is still under the control of U.S. Customs in an official

bonded cargo warehouse. We have the ability to accommodate bonded transport and can serve as a helpful intermediary in the case of bonded cargo. Our ability to serve as a bonded cargo facility and provide bonded transport furthers that convenience for your company.

CERTIFIED CARGO SCREENING SERVICES

In cooperation with the U.S. Transportation Security Administration (TSA), EWC is a Certified Cargo Screening Facility offering a valuable supplement to your shipping and receiving needs. Our certified employees can prescreen shipments before they are placed on an aircraft, which helps prevent extensive waits and reduces additional handling at the airlines. We can provide this shipping and receiving service to your company and improve the efficiency of all of your warehouse and distribution needs.

SUPPLY CHAIN SERVICES

EWC strives to give you a competitive advantage and will continually seek new ways to improve the effectiveness of our supply chain services to reduce cost of storage and keep your overall inventory at the optimum level. Ask us how our shipping and receiving supply chain services can work for you to improve the bottom line of your company.

WAREHOUSING SUPPORT SERVICES

In addition to storage, we offer a variety of support services to help with your shipping and receiving needs. Some of the additional services we offer are:

- Shipment packing (either on-site or off-site)
- Dangerous Goods packing
- Crating of shipments (either on-site or off-site)
- Pallet build and break down
- Ocean container build and break down
- Airline container build and break down
- Tractor trailer build and break down
- Pick, pack and ship

Expertise in every step of the warehouse and distribution process makes it easy to help your company reduce costs. From storage to supply chain management, EWC can improve the efficiency of your shipping and receiving process. Talk to a EWC representative today.
